J: ...so you do like to actually look at a lot...

A: ...yeah I will...

J: ...of sites first, and just maybe go through, even a pretty long list of sites, and just go through them one by one and see what you want.

A: Yeah, I always have that, "o.k. I'll stop after page ten", and then I don't stop after page ten.

J: I mean, I just kind of lose myself in the search for a while, and browse, and find stuff and think about it and click on different links and then, after so much time I'm done looking, and I have to stop...

A: Yeah, I'm not done. [laughs] That's one of the hardest parts. It's like, "I've got to stop research, I've got to stop researching" but I never want to stop [both laugh].

J: That's so interesting.
