

Katie Plays

J: So when you...if you're searching for books that you want do you go to online sources and search for stuff?

K: Yes. Usually, actually, I'll go either to Google...to figure out...because usually I only know part of the name and part of the author [laughs]...and so I'll do my best to find keywords once more, and do that...and then go on to Amazon.com or Barnes&noble.com for books.
