Enhance Your Online Conversations with Jing
Jing is a computer service that lets you capture basic video, animation, and still images, and share them on the web.

Capture what you see
Capture an image of what you see on your computer screen with Jing. Simply select any window or region that you want to capture, mark up your screenshot with a text box, arrow, highlight or picture caption, and decide how you want to share it.

Record what you're doing
Select any window or region that you would like to record and Jing will capture everything that happens in that area. From simple mouse movements to a fully narrated tutorial, Jing records everything you see and do. Jing videos are limited to five minutes for instant, focused communication.

Send your video or screenshot
Send your screenshots and videos all over the web. As soon as you're done with your screen capture or screen recording, it's ready to upload to click: Screencast.com and share through IM, email, social media, and more.
